Hargreaves long-standing client Ratcliffe power station completes historic final coal delivery

From left - Peter O'Grady, Plant Manager, Uniper. John Smith, Chief Executive Officer, GB Railfreight. Mike Lockett, Uniper UK Country Chair. Sean Hager, Managing Director of Hargreaves Industrial Services UK & South Africa

In a landmark moment marking the end of an era, GB Railfreight has delivered the likely final coal shipment to Ratcliffe power station, as it prepares for closure on 30 September. Hargreaves very first operation and maintenance contract with Ratcliffe Power Station began in 1994. GB Railfreight will name one of its locomotives 'Ratcliffe Power Station'.

The 1,650-tonne delivery, which is expected to be the last in the station's history, carries enough coal to generate electricity for approx. 500,000 homes for an 8 hour period. It signifies the culmination of a long-term partnership, during which more than 6,000KT of coal were transported from the Port of Immingham.

Your Safety First: Business Conference Update Success

HIS SHEQ Manager David Turner

MD Sean Hager kicked off our six-monthly conference with keynotes addressing our latest achievements, challenges, solutions, and new business opportunities. This was followed by SHEQ updates from our SHEQ manager, David Turner.

The final highlight of the conference was the presentation of our safety awards. These awards recognise sites and individuals at Hargreaves who have made significant contributions to going the extra mile in their work. By acknowledging these efforts, we foster a culture where excellence thrives and where everyone feels motivated to contribute their best.
