Hargreaves Industrial Services

Welcome to our latest newsletter! We're pleased to share the latest news on our initiatives, success stories, and developments from our organisation. Stay connected with our community and receive firsthand details about upcoming events, exclusive offers, and more.

HIS Receives Constructionline Gold membership Status

Constructionline

Gold Member

We are delighted to announce that we are now Gold Membership Accredited with [Constructionline](#). Being awarded this membership is a promise to our customers and clients that we meet the PAS 91 and Common Assessment Standard and pre-qualification across core modules required by the public and private sectors.

Originally established by the UK Government in 1998, Constructionline's aim has been to support businesses in the public and private sectors, help members keep track of all current legislation, and ease procurement risk.

Gale Common: Team members help the local community

Our team at Gale Common recently volunteered to help lay a concrete plinth and mount a bench, in remembrance of a police officer who was sadly killed on duty. EPUKi, who own and operate the Gale Common Ash Disposal Site, had a request for the bench to be installed at Whitley Village, but had no one to install it. The bench was recently unveiled at a ceremony in remembrance of the police officer.

New Case Study - Severn Trent Water

In November 2020, Hargreaves Industrial Services was appointed to the Mechanical Services Framework to work collaboratively with Severn Trent Water, providing Mechanical Services on both water and waste sites and asset. This case study highlights aims & objectives of the framework, framework outcome and feedback from the client.

Achieving Excellence: HIS Safety member Earns Certification in Health & Safety Management for Construction

Congratulations to Gavin Williams, HIS Safety Advisor, for recently passing his NEBOSH construction certification with a distinction. The NEBOSH Health & Safety Management for Construction (UK) provides a broad understanding of construction-related health & safety issues and is an essential qualification for anyone with health & safety responsibilities at HIS.

NEBOSH Health and Safety Management for Construction (UK) can help to:

- Minimise workplace injuries and illness
- Ensure you comply with the Construction (Design and Management) Regulations 2015 (CDM)
- Understand the responsibilities of the six roles in the CDM regulations

- Boost employee wellbeing
- Demonstrate your commitment to health and safety, which can help win business
- Strengthen your health and safety culture.
