## Hargreaves Industrial Services

Welcome to our latest newsletter! We're pleased to share the latest news on our initiatives, success stories, and developments from our organisation. Stay connected with our community and receive firsthand details about recent events, exclusive offers, and more.

## Hargreaves Achieves Be Well @ Work Award

We are pleased to announce our achievement of the South Yorkshire Be Well @ Work Bronze award, demonstrating our dedication to promoting the health and wellbeing of our employees. The Be Well @ Work program is instrumental in assisting organisations in enhancing their support systems and making the wellbeing of employees a top priority. Our company has been awarded the 'bronze' for our outstanding health and safety practices and the implementation of health campaigns within our workplace.

Thank you to the HR team for supporting this achievement; your contributions are appreciated.

# Ratcliffe Team Member Wins Award for Health & Safety

**Ricky being presented with Garmin Watch**

Well done to our Operations Manager, Ricky Wright, of Ratcliffe Power Station, for winning the Uniper August safety prize for his proactive safety actions, which identified an error on a safety document before the work was set to be completed by our team. Prior to the job starting, Ricky carried out a job freeze audit as he had noticed that the location of the work and the equipment to be worked on did not match. He immediately suspended the work until the paperwork was rectified. This acknowledgement by the owners and operators of the power station highlights the importance of our contributions to a safe working environment.

## Client Engagement Tour on SDV Conveyor System

A big thank you to Michael Walt and Nicholas Tyas for facilitating the tour, and to the Hargreaves Industrial Services site team for the excellent condition of the plant. It still looks brand new after handling over one million tonnes!

Sustainability wise, the million tonnes has removed over 50,000 lorry movements and 900,000 miles from the public highway. This has saved >400 tonnes of CO<sub>2</sub>, which is equivalent to the planting of more than 2,500 trees. We are very proud to have made a small contribution to the UK's journey towards net zero.

# YorkshireWater

## New Case Study: Yorkshire Water Sludge Handling

Our latest study explores various aspects of our sludge handling contract with Yorkshire Water that began in June 2024, including the management of the sewage sludge processing plant, and how we contribute to the plant's role effectively in the wastewater treatment process. Read the full case study on our case study section.
