S&B Utilities Engage in AMP8 Partners Event

On 6th February, S&B Utilities attended the NWL Eco System Expo Event along with all partners that have been appointed to Northumbrian Water's Living Water Enterprise.

Last year, Northumbrian Water completed its AMP8 framework procurement with the appointment of 33 new partners to help deliver its £3.6bn AMP8 capital investment programme. This appointment has created a new opportunity for S&B Utilities to collaborate with industry leaders and innovators in the water sector.

Head of S&B Utilities Terry White said, 'We're eager to build on these connections and explore new opportunities together. Connecting with NWG's team and the ecosystem partners highlighted how collaborative this programme is. This is a great opportunity for S&B Utilities to really make a difference.'

Exceptional People: Employee Spotlight of the Month

FRANK BROWN

Meet Frank, who joined our team at Daldowie Fuel Plant located near Glasgow as a labourer in 2024. The plant processes sewage sludge from the Glasgow catchment area.

Frank has had a long and varied career, from working in the steel industry in the 80s and 90s to working in social work for around 20 years in a youth justice team. Frank also briefly worked in the funeral industry and then as a traffic warden.

‘A typical day for me can involve providing labour to the fitters or general cleaning & tidying of the workplace. This varies from day to day. I enjoy the variety of tasks within the workplace as well as the camaraderie of my colleagues. Having developed many varied skills over the years, I am very much enjoying doing manual labour again in the twilight of my working life’.

HIS Pass ROSPA Audit

HIS recently completed their annual ROSPA Audit, this proved to be very successful and HIS is proud to have maintained their Level 5 Diamond Rating.

The ROSPA Audit is a rigorous evaluation process, and maintaining the Level 5 Diamond Rating is a reflection of the high standards we uphold in every aspect of our service.

Thank you to the Safety Team and everyone involved for your efforts.

Killingholme Safety Week

Last week, our team at Killingholme celebrated their Safety Week 2025. The Safety week theme was 'GOAL', "GET OUT AND LOOK".

'GOAL' captures and reminds drivers when doing any transport tasks, that if they are unsure of how close objects are during transport movements be it forwards or reversing, they can simply stop if safe to do so, and by simply stopping and taking the time to check by getting out to check their distances of their vehicle from potential impacts by checking the safe space available, may prevent any low-speed traffic impacts and damage to plant and equipment.

Celebrating Nearly 30 Years of Service: HIS Bids Farewell to valued Team Member Mark Defer

This month, we say goodbye to our dear colleague, Mark Defer, who has been an integral part of our team for nearly three decades. Mark joined Hargreaves as a plant operative at HIS's very first long term operation and maintenance contract with Ratcliffe Power Station, generating electricity for the final time on 30 September 2024.

Mark continued his career in the Safety team and is currently the division's SHEQ Training and Mobilisation Coordinator.

As part of his role at Ratcliffe, Mark was the first team member to become eligible to receive and issue permits to work systems required to control work.

We thank you for your loyalty and hard work over the years and wish you all the best in your future endeavours. We hope you enjoy every moment of your well-deserved retirement.
